

STEROIDS

The Board of Trustees recognizes that the use of steroids and other performance-enhancing supplements presents a serious health and safety hazard. As part of the district's drug prevention and intervention efforts, the Superintendent/Principal or designee and staff shall make every reasonable effort to prevent students from using steroids or other performance-enhancing supplements.

Students in grades 7-8 shall receive a lesson on the effects of steroids as part of their health, physical education, or drug education program.

(cf. 5131.6 - Alcohol and Other Drugs)
(cf. 6142.8 - Comprehensive Health Education)

Students participating in interscholastic athletics are prohibited from using steroids and dietary supplements banned by the U.S. Anti-Doping Agency as well as the substance synephrine. (Education Code 49030)

(cf. 5131.61 - Drug Testing)
(cf. 6145.2 - Athletic Competition)

Before participating in interscholastic athletics, a student athlete and his/her parent/guardian shall sign a statement that the student athlete pledges not to use androgenic/anabolic steroids and dietary supplements banned by the U.S. Anti-Doping Agency and the substance synephrine, unless the student has a written prescription from a licensed health care practitioner to treat a medical condition.

A student who is found to have violated the agreement or this policy shall be restricted from participating in athletics and shall be subject to disciplinary procedures including, but not limited to, suspension or expulsion in accordance with law, Board policy, and administrative regulation.

(cf. 5144 - Discipline)
(cf. 5144.1 - Suspension and Expulsion/Due Process)
(cf. 6145 - Extracurricular and Cocurricular Activities)

The Superintendent/Principal or designee shall ensure that the district school does not accept sponsorships or donations from supplement manufacturers that offer muscle-building supplements to students.

(cf. 1325 - Advertising and Promotion)

STEROIDS

The district shall not accept a sponsorship from any manufacturer or distributor whose name appears on the label of a dietary supplement that contains substances banned by the U.S. Anti-Doping Agency and the substance synephrine. Such supplements shall not be sold, distributed, or marketed at a school-related event. (Education Code 49031)

Marketing includes, but is not limited to, direct product advertising, provision of educational materials, product promotion by a district employee or volunteer, product placement, clothing or equipment giveaways, or scholarships. Marketing shall not include the inadvertent display of a product name or advertising by a person who is not a manufacturer or distributor. (Education Code 49031)

School personnel and coaches may provide only nonmuscle-building nutritional supplements to student athletes for the purpose of providing additional calories and electrolytes, provided that they do not contain any dietary supplements prohibited by the U.S. Anti-Doping Agency and the substance synephrine. Permissible nonmuscle-building nutritional supplements are identified according to the following classes: carbohydrate/electrolyte drinks, energy bars, carbohydrate boosters, and vitamins and minerals.

School personnel, including coaches, shall follow the manufacturer's recommendations when discussing the use of any drug or food supplement with a student athlete. In order to minimize the health and safety risks to student athletes, school personnel shall not supply or recommend any drug, medication, or food supplement to enhance an athlete's performance.

Notice

The Superintendent/Principal or designee shall ensure that the following warning, reproduced in 10-point bold type, is posted in every locker room and contained in any contracts for the lease or rental of the school's athletic facilities: (Civil Code 1812.97)

Warning: Use of steroids to increase strength or growth can cause serious health problems. Steroids can keep teenagers from growing to their full height; they can also cause heart disease, stroke, and damaged liver function.

Men and women using steroids may develop fertility problems, personality changes, and acne. Men can also experience premature balding and development of breast tissue. These health hazards are in addition to the civil and criminal penalties for unauthorized sale, use, or exchange of anabolic steroids.
